EXPERIENCE

Datamato Technologies Pvt. Ltd. April 2022 – Present
Software Engineer — *Pune, Maharashtra*

- Developed a **System of Records (SOR)** application using SpringBoot and PostgreSQL database, encompassing REST APIs to manage application environments, artifactory, systems, and states, reducing manual intervention by 80%.
- Designed and developed an **Automation Adaptor** using Java SpringBoot to automate task triggering, pipeline management, environment creation, repository management, and access control, significantly reducing manual workloads.
- Implemented containerization using Docker and wrote manifest files for Kubernetes pods deployment. Used Cloud Services like AWS EC2, EKS.
- Setup Nginx for load balancing across multiple modules.
- Led CI/CD implementation automating deployment processes for the application.
- Spearheaded CI/CD automation implementation for Oracle Siebel, streamlining deployment for over 30 components using GitLab.
- Orchestrated end-to-end automated deployments using GitLab, SonarQube, Nexus, and Tomcat as deployment servers for Java SpringBoot applications.
- Developed Java Utility which facilitates deployment via GitLab across 30 components of Oracle Siebel. which helps in significant time reduction in Data Operations like import, export, and data loading time from 4hrs to 20mins on environments.
- Received client appreciation on Implementation of OneClick file system and database deployment using GitLab and shell scripting

Java By Kiran Training Institute Nov 2021 – April 2022
Intern *Pune, Maharashtra*

- Created employee management module using Core Java, showcasing foundational programming skills.
- Developed and executed Selenium automation scripts to perform comprehensive testing.
- Performed automation testing of multiple websites such as naukri.com and javabykiran.com, identifying and reporting bugs to improve site functionality and performance.

SKILLS

Languages: Java, Python, SQL, Shell, YAML, HTML, CSS
Tools and Services: Git, Maven, Gradle, GitLab, Jenkins, Sonarqube, Nexus, PostgreSQL, Nginx, Docker, Kubernetes, AWS EC2, AWS EKS
Skills: DevOps, Source Code Management, CI/CD Automation, Deployment Configurations, and Management, Project Management, Software Development, Backend Development, SpringBoot, REST API Development, Team Leadership and Mentoring, Software Development Lifecycle, Cross Team Collaboration.

CERTIFICATIONS AND ACHIEVEMENT

- GitLab Certified Services Engineer Professional
- GitLab Certified Project Management Associate
- GitLab Certified Git Associate
- Java J2EE by Java by Kiran
- Full Stack Java Developer by Udemy

EDUCATION

Chandigarh University, Mohali 2022 – 2024
Master of Computer Applications *CGPA: 7.67/10.00*

Dr. PDKV, Akola 2017 – 2021
B .Sc (Hons) *CGPA: 7.65/10.00*
